

Welcome to the Interstate PowerSystems Training Update. It is a privilege to serve as one of the upper Midwest's premiere training providers for Allison Transmission and Detroit Diesel products. Let us know how we can serve your training needs. For your convenience, upcoming training opportunities are listed on the back.

Meet The Trainers

Steve Peterson began working for Interstate PowerSystems in August of 1974. He rebuilt 2-cycle injectors until June of 1975 when he began rebuilding starters and alternators. In July of 1976 he started working on Allison Transmissions and in October of 1996 became part time Trainer. Since January of 2004 he has been a full time Certified Instructor.

Bob Stevens began working for Interstate PowerSystems as a technician in June of 1972. In 1980, he became Shop Foreman and in 1990, Assistant Service Manager. In 1995 he assumed the roll of Service Manager and from 1998 until present, Bob has been Training Manager and Certified DDC Engine Instructor.

Training Information

Accreditation

Interstate PowerSystems offers accredited training that meets factory training centers exacting specifications and requirements for facilities, equipment and tools.

Schedule

All classes run from 8:00 AM until 4:30 PM. Last day of class may conclude earlier.

Registration

To register, log on to www.istate.com and select the Training link on the Home Page. Class sizes are limited. Early enrollment encouraged. Custom classes tailored to your needs are available. Contact us for details.

Cancellations

There will be a \$150.00 charge if cancellations are not made five working days before the start of class.

Attire

It is suggested that students wear suitable clothing and shoes to work on engines and transmissions. Safety glasses are required in shop areas.

Accommodations

Students are responsible for transportation, meals and hotel. Please see the web site for recommended hotels and corporate rates. Be sure and mention Interstate PowerSystems when making your reservation.

Class participants must be members of Allison **E-Learn** and have passed the on-line pre-requisite* testing for that product line before coming to class.

*Pre-requisites can be found on-line at www.istate.com

DETROIT DIESEL
DEMAND PERFORMANCE™

Class participants must be members of the **Freightliner Academy G2 Program** and have completed the pre-requisite* for each course. They should also have their FLLC Log In and Password with them when they come to class.
